The Capital Financing Fund was established in 1993 when the City sold its used garbage equipment and dumpsters to the private company taking over garbage collection and disposal. Prior to that time major purchases were financed either through the issuance of bonds or, in the case of equipment purchases, through lenders using lease purchase arrangements. The fund has proven very successful as the 'bank' to provide internal financing for equipment and major projects and over the years the City has added other funds to the program.

As an internal service fund the Capital Financing Fund makes no direct expenditures but transfers funds to the purchasing fund so that the asset being purchased is accrued to the proper inventory. An amortization schedule is established and the purchasing fund repays the Capital Financing Fund. A reasonable interest rate is charged so that the Capital Financing Fund grows over time.
